

Help us keep NW7 Beautiful!

We love our special Mill Hill.

But it can look quite messy with all the litter that has been carelessly thrown about. Ugly 'dirt spots' build up over time and the council's resources are too stretched to deal with them.

So some of us Mill Hill residents get together for just one hour a month to clear the area of litter.

It's very social and we have a lot of fun together - grabbers and bags provided! And a well-deserved cuppa after.

Best of all is that we're making a difference; incidents of littering has dramatically reduced and many of the really bad spots have remained tidy.
